

## REPORT RECEIVED

**By Roosevelt Verifies Falsity of Reported Killing of Vice Consul.**

**Minister Expresses Belief of Serious Trouble, and That American Interests and American Lives Are in Danger. Armed Squadron Will Go on.**

Oyster Bay, Aug. 29.—It developed today that the cablegram from minister Leishman, at Constantinople, transmitted late last night to President Roosevelt, contained, in addition to a statement of the incorrectness of the announcement of the death of Magelssen at Beirut, an important report upon the situation in the Ottoman empire. Minister Leishman takes a serious view of the condition of affairs in Turkey. Practically the entire dominion of the Sultan is in a state of unrest, and in some parts the existing turbulence is equivalent to insurrection.

Minister Leishman apprehends serious trouble and indicates his belief that American interest and American lives are in peril on account of the fanaticism of the Mussulmen population.

The minister's report confirmed information received by President Roosevelt and Secretary Hay, from unofficial sources. For these reasons, it was decided by the president that additions to the squadron should proceed to Turkish waters in accordance with the original orders, notwithstanding the inaccuracy of the report of the assault on Consul Magelssen.

In any event that was regarded by this government, only as an incident. The fact that the assault upon the consul was not attended by a fatal result justifies the action of the United States in removing one serious phase of a situation that otherwise may become intolerable, very soon. It has not been decided definitely whether or not Admiral Cotton's squadron will rendezvous at Beirut as originally ordered. The destination of the vessels will be determined by the developments of the Turkish situation.

Secretary of the Treasury Shaw, after a conference with the president which continued far into the night, left today on an extended trip through the middle west. He will deliver two or three addresses while on his journey, and probably will not return to Washington before Sept. 15. No statement could be obtained of the result of his conference with the president on the financial situation, and it is understood, none will be made until action shall have been taken by the secretary.

### THE BLUNDER

**Came Through Error in Transmission By British Official.**

London, Aug. 29.—The officials of the foreign office here are greatly puzzled over the error, in the official cable message announcing the assassination of Magelssen, the American vice and deputy consul at Beirut, Syria. They reiterated today that the message was transmitted through the British ambassador at Constantinople, from the British consul at Beirut. No correction has been sent either by the ambassador or by the consul.

### GOT CODES

**Mixed and Made Murder Out of the Mixture.**

Washington, Aug. 29.—Secretary of State Hay returned to his desk in the state department this morning. It was said that his arrival in Washington at this time was due to the occurrences in Turkey but in accordance with arrangements made at the time of his departure for Oyster Bay, Mr. Hay said that while uprisings in Turkish dominion were more or less chronic the present state of affairs assumed the proportions of an insurrection of considerable magnitude. He would not disclose the text of the cablegram received last night from Minister Leishman but said that the minister's advice were that the erroneous report of the assassination of Mr. Magelssen was due to the use of the wrong code number and not to any error in translation. The information given in the cablegram was that the governor called at the consulate and offered prompt action and would make every effort to find out and punish the would be assassin. Mr. Leishman further advised the secretary that several of the consulates have reported to their governments that the condition of the city of Beirut at the present moment is unsafe. With the view to furnishing Secretary Hay with the fullest facts concerning the reports which have come from the missionaries in Turkey, a committee representing the board of American missions will call upon him tomorrow or Monday, he having indicated a desire to meet such committee and obtain from them all information in their possession.

## UNIVERSAL PEACE UNION

**At Closing Session Adopted a Series of Very Important Resolutions.**

Mystic, Conn., Aug. 29.—The universal peace union at its closing session today, adopted a series of resolutions or "convictions." The preamble says that with all the encouragement in the demand for peace, "we are still confronted with obligations resting upon peace societies and all advocates of peace to remove the causes and abolish the custom of war." The resolutions set forth that the duty of the hour is to overcome all conditions that make war possible by teaching the principles of peace and arbitration in schools and universities, by practicing them in every day life and by multiplying courts of arbitration.

A peace conference to be called by the president every four years, looking to the prevention of war is favored. The closing conviction is that this country and England, "which by force of arms, have conquered weaker nations should make reparation by the introduction of the best of their institutions, and the gifts of liberty and independence."

The union recommends an appeal to all nations to set aside by legislation

at least, one per cent of their annual appropriation for a permanent peace fund to be expended under directions of the Hague international arbitration court.

**MONDAY IS DAY NAMED.**

New York, Aug. 29.—The committee of the New York Yacht Club named Monday as the day for the next race. It was also decided to hold the races every day thereafter until the international contest is decided.

## LARGE FORCE WAS CUT DOWN

**By Insurgents While on Its Way to Aid the Sultan's Troops.**

Paris, Aug. 29.—A dispatch received by the foreign office from Morocco, says that a large imperial force which was going to the relief of the troops commanded by the sultan, has been surprised and almost annihilated by insurgents. The Temps publishes details of the engagement in Morocco, showing that the imperial troops numbered three thousand men. They were ambushed with the result that over one thousand of them, including seven native governors, were killed or wounded.

## TRAINING FOR BATTLE.

**Senator Hanna Remains in Bed Recuperating for Coming Great Fight.**

Cleveland, O., Aug. 29.—Senator Hanna, upon the advice of his physicians, did not leave his bed today and will probably not do so before the first of next week. While the senator has no fever, he continues somewhat weak, and for that reason it is thought best for him to remain in bed, for a day or two longer. He expects to take an active part in the republican state campaign and to make many speeches during its progress. Governor Hunt, of Porto Rico, was a guest at the Hanna residence today and talked for some time with Mr. Hanna.

## WORST STORM ON THE LAKE IN MANY YEARS.

Buffalo, N. Y., Aug. 29.—A special to the News from Niagara Falls says: "A tremendous sea is running on Lake Ontario and navigation is tied up. The boats of the Niagara River Line cannot make their trips between Toronto and Lewiston. The storm is the worst that has occurred on the lake in eight or nine years."

## THE FLAG WILL FALL

**On String of Best Two Year Olds in America at 4 O'clock.**

**Nineteen Are Entered for Sixteenth Futurity, Good for \$50,000 to Winner But Several Will Scratch Because of a Heavy Track. Hamburg Belle Favorite.**

New York, Aug. 29.—Two days of steady rain make the sixteenth futurity today, a race for two year olds strong in heavy going. This class race will be run at Sheepshead Bay over a track so deep in mud that it will take a skilled eye to distinguish the soil spattered silks of the winner of the six furlong dash, which will claim the attention of the racing world about four o'clock this afternoon.

At that hour the bugle will call to the post nineteen two year olds, the best that America can put forth, trained to the minute for the great event. Several of the nineteen will undoubtedly not answer the call, their owners seeing slight hope of the \$50,000 prize and the floral horseshoe at the end of that six furlong stretch of mud. Some may be drawn to save the \$250 it will cost to fix the starters, others for fear of injuring precious horse flesh over the slippery course. The stake, it is estimated will be worth about \$50,000 of which nearly \$50,000 will go to the winner, the rest being divided between the second and third horses.

The condition of the track and doubt as to the starting of some of the horses made the odds very uncertain.

Hamburg Belle, the favorite, had been considered a doubtful starter, but her trainer declared today that she would positively not be scratched. She carries only 114 pounds and should she start, her price will probably be 3 to 1. The Brown entries, Broomstick and Audience, coupled in the betting will probably be held at 5 to 1. Jockey Odom being expected to bring out Broomstick, though with 127 pounds up, well toward the front. This is the top weight, carried also by Belmont, one of R. Keene's pair, which are also strongly placed. John E. Maddens trio, Adell, Gettysburg and The Minute-Man, carried the hopes and wagers of many.

## ONE KILLED MANY INJURED.

**Eric Trains Collide With Fatal Results. One Passenger Loses Arm.**

Middleton, N. Y., Aug. 29.—Two trains on the Erie railroad collided near Turners today, killing one unknown man, and injuring a number of passengers. E. F. Hullfield, of New York, had an arm cut off. The injuries to the others consisted mainly of cuts and bruises.

### OLDEST MAN DEAD.

Bloomington, Ill., Aug. 29.—Francis Anthony, the oldest man in Illinois, died this morning of heart failure. He was born in May 1800 in Ireland.

## RIVER WILL REACH HIGHEST POINT TODAY.

Kansas City, Mo., Aug. 29.—The local weather bureau today predicted that the Kansas River at this point would reach its greatest height this evening, when it would begin to fall slowly and that the Missouri, after rising about another foot within the next 4 hours, would be at a standstill. Kansas streams west of here continue to fall fast and all danger of a rise that would wreck the new Kansas City bridges, seem to have passed.

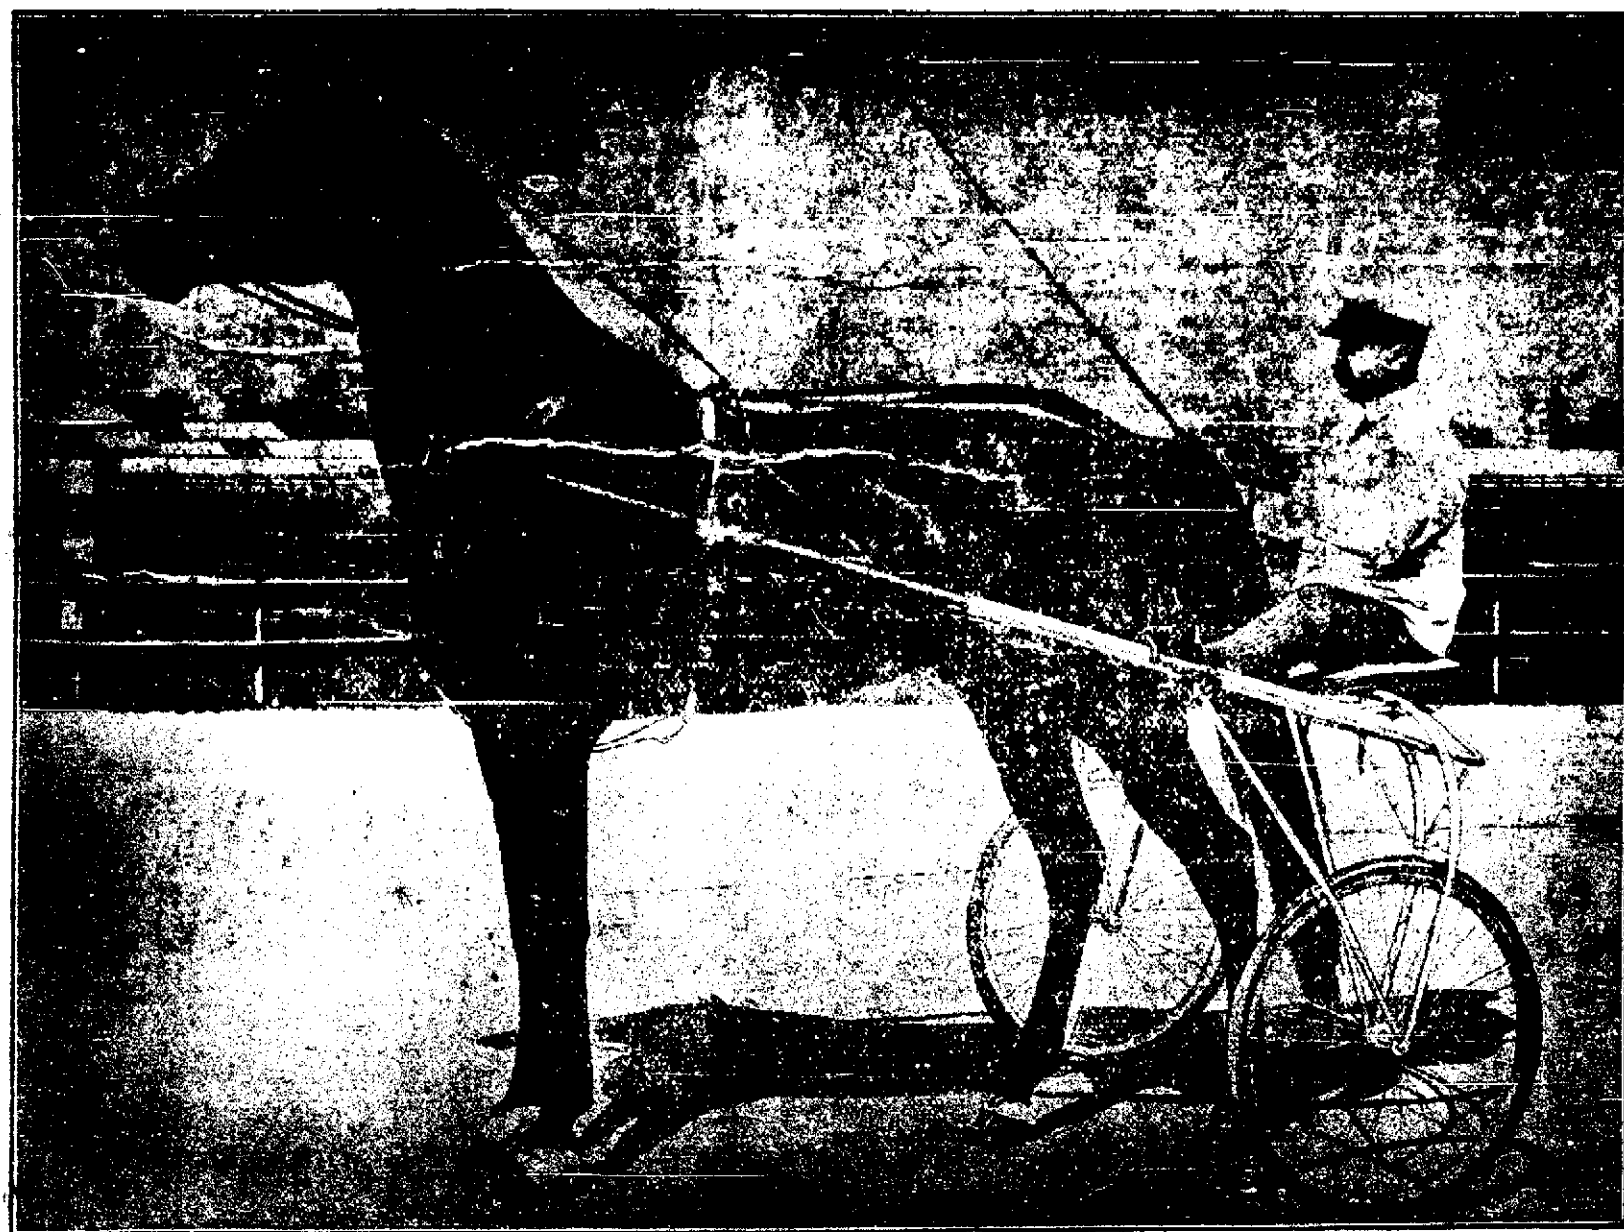

### LONDON

**Wants Sir Thomas To Exchange Crews for a Race.**

London, Aug. 29.—A despatch was sent to Sir Thomas Lipton today, offering to guarantee the expenses if he will arrange for a series of five races between the Reliance and the Shamrock III, with their crews exchanged.

### MACHIAS FOLLOWING.

Genoa, Italy, Aug. 29.—The U. S. gun boat Machias left here today, bound for Beirut. She was saluted by the Italian warships whose crews wished her good luck.

**DAN PATCH, GREATEST RACE HORSE LIVING.**

Interest in the approaching effort of Dan Patch, on the Lima Driving Park grounds, one week from Monday, Labor Day, September 7, to lower the world's half mile track record of 2:04½, is attracting national interest, and is enhanced by his recent wonderful performance at Brighton Beach where he clipped the world's record of 1:59½, held by Star Pointer since 1897, to 1:59. Figures are generally uninteresting, but a few are necessary to illustrate this wonderful test of speed.

Should Dan Patch clip just ¼ of a second from the mark of 2:04½, some idea of what he had accomplished can best be understood when it is known that a horse going at a 2:04 clip travels 42 58-100 feet a second.

## AN OLD FEUD ENDS IN DEATH.

**Murderer Arrayed in Best Clothes Defied Pursuers and Escaped.**

Marion, O., Aug. 29.—Geo. W. Miller, aged 58, who was shot yesterday at Decatur by Jerry Simms, died last night. Simms thus far has managed to escape arrest. He was overtaken by a posse at Scottsbluff last evening, but frightened the members and got away. Simms, it develops, after leaving

Miller at Gordon's store, went to his home, donned his best suit of clothes, supplied himself with a lunch and a revolver, went back to the store, shot Miller and escaped. A feud had existed between Miller and Simms for some time—the latter charging Miller with interfering with his home.

## ROBBED BANK BEFORE PUBLIC

**Gaze, of Three Hundred Dollars, and Escaped Under Heavy Fire.**

Bangor, Me., Aug. 29.—The four or five men who demolished the vault of the Brewer Savings Bank, last night, eluded the police and this forenoon were dodging an armed posse in the woods beyond Bangor. The robbers secured about \$300. They were watched at their work in the bank by

a number of persons who made no attempt to molest them, because of the guns. When the burglars left the bank they retired under cover, the men firing a dozen shots. Nearly a score of policemen, deputies and citizens armed themselves as soon as possible and started in pursuit.

## ELECTRIC CAR WAS HELD UP.

**Three Men Robbed the Passengers of Everything Valuable They Had.**

Los Angeles, Cal., Aug. 29.—An electric car on the San Pedro-Los Angeles line of the California Pacific railway company, was held up about 2 miles south of the city limits last night, and the crew and five passengers robbed.

The three armed highwaymen secured about \$100 in cash and several watches. There was no resistance on the part of the crew or passengers, and no shooting by the highwaymen.

## LAWYER WHO INCITED MURDER IS RELEASED.

London, Aug. 29.—Dr. Kraus, the former governor of Johannesburg, who was sentenced in London January 18, 1902, to two years in prison, after having been convicted on the charge of inciting Cornelius Brookes, the former public prosecutor of Johannesburg, who was executed by the British in South Africa to murder John Douglas Foster, an English lawyer, who on the staff of Lord Roberts, was released

### VESUVIUS STILL ERUPTING.

Naples, Aug. 29.—Vesuvius is still in eruption today but no damage is being done. Three new fissures about five hundred feet long, can be seen in the volcano. The stream of lava going towards Pompeii is flowing much slower and is now insignificant.

## CONTEST FOR TODAY

Was Declared of Because of Too Much Wind Over the Course.

Lipton Is Anxious to End Agony, and Wants the Next Race Set for Monday. Enthusiastic Londoners Want Races With Crews Exchanged.

New York, Aug. 29.—For the first time in the history of the Americas' cup contest, a race has been postponed because of too much wind. Today, the third of the present series was to have been sailed. Following the futile attempt of Thursday, when the wind was not strong enough to complete the race in the time limit, it was hoped by yachtsmen that today's race would be decisive, and the series completed. Ten hours after Thursday's drifting failure, a storm broke over the cup course, and raged about Sandy Hook. The water was tumbled into waves that troubled even an ocean liner. The wind blew with a velocity as timed between 40 and 50 miles, and the rain driven before it obscured the vision beyond a mile or two. Within the sheltering bend of Sandy Hook, where the two racing yachts rode at their moorings, the water was comparatively quiet this morning.

while across the Sandy peninsula, on the ocean side, the surf boomed as it broke upon the beach. At 7 o'clock the regatta committee met at the New York Yacht club house and decided to postpone the race for the day. The meeting was then adjourned until 1 p. m., when a decision as to a race being sailed Monday will be reached. In the meantime, a tug was sent to Sandy Hook, to secure the feeling of Mr. Iselin and Sir Thomas in the matter, and upon the return of the tug, definite action will be taken. A prominent member of the yacht club said this morning that he was in favor of a race Monday, and now that Sir Thomas has openly expressed himself on the abilities of both boats and acknowledged himself defeated, it was thought advisable by many of the members of the yacht club that the race be sailed Monday, and the series completed as soon as possible.

## SHOT AT CONSULATE WITHOUT ANY DAMAGE

War Minister Has Been Advised of no New Revolutionary Outbreaks, But Is Taking Military Precautions to Prevent.

Constantinople, Friday, Aug. 28.—News was received today from the foreign consulates in Macedonia. The Austrian consul at Uskub, reports that a detachment of troops passing the Austrian consulate, discharged their rifles at the consulate. No one was hurt. The persons sent to reopen the lighthouse at Kuruburun, India Bay reports that it has been completely

destroyed. The war minister has been authoritatively informed of no revolutionary outbreak in a few days in the districts of Seres, Strumitz, and Raslin. He is taking the necessary military measures. Bulgarians are very numerous in that part of eastern Macedonia and their operations are facilitated by the mountainous country, and its proximity to Bulgaria.

## BUCKED AGIN COFFEE TRUST.

Large New York Berry House Goes Down Because of Competition.

Chicago, Aug. 29.—A despatch from Canton, O., says: "Announcement is made here of the failure of Danemiller and Co., coffee dealers of Brooklyn, the amount involved in the failure is placed at nearly \$500,000. Nearly all the company's paper is held by

eastern banks and brokers. The failure is said to have been caused by the war of prices between big coffee companies. It is expected that members of the company will aid in meeting the indebtedness. The Danemiller Grocery Co., is not involved in the failure.

**ANNUAL**  
County Convention of W. C. T. U. Workers  
Will Be Held Next Friday. The State President Will Be Present.

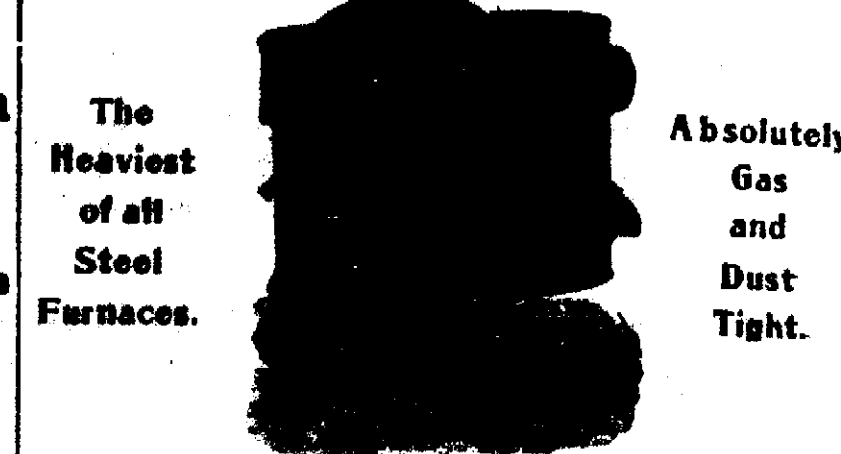

Call for the annual county convention of the Woman's Christian Temperance Union.

The eighteenth annual convention of the Woman's Christian Temperance Union of Allen county, Ohio, will be held in the Spring street Lutheran church, Lima, Friday, September 4th. As in the days of Hezekiah we need to make confession and supplication, for we have transgressed and done that which is evil in the eyes of our Lord, concerning the great sin of the legion traffic, which has broken forth upon all the inhabitants of the land, and the wrath of the Lord is upon our nation. Let the white-ribbons of the county and all others, who should be interested in temper-

ance reform, unite with us in prayer, and in supplication, that we may be strong and courageous, neither be discouraged, nor confounded in the presence of the enemy.  
To be a member of the Woman's Christian Temperance Union, means to develop courage in right doing.

Saturday....."The Irish Pawnbrokers."

The great rolling mill scene in "A Human Slave," which comes to the Faurot opera house tonight is one of the greatest melodramatic sensations of the season. In this scene the rising of the curtain discloses the Stockton iron works in full operation, and several big ladies of molten iron are poured into moulds during its progress. The stage is alive with workmen, and altogether the entire act is one of movement and excitement.

Not Guilty

Her success inspired Joe LeBrandt, the successful dramatist, with the idea for his latest melodrama, "Over Niagara Falls," which will be on view at Faurot opera house next Tuesday, Sept. 1. The utilizing of the falls as a scenic accessory to a play has never been considered any more practical than making a descent of them, although painted reproductions have been attempted. Rowland & Clifford, after much patient experimenting, have finally perfected a scene that is said to be really marvelous, actually showing the Falls with its mighty rush and roar of water in full motion. It is said to be startling in its pictorial realism. Around this scene is written one of the most highly dramatic and sensational stories that the stage has seen for many a day, the terrifying experience of Miss Madeline going over the Falls in the self-same barrel that Anne Edson Taylor used, and her subsequent rescue in the rapids.

"Tess of the D'Urbervilles." No play of recent years created the sensation in New York City that "Tess of the D'Urbervilles" did when it was produced at the Fifth Avenue theatre.

The rights to the dramatization of Hardy's novel has been secured by Manager Frank Burt from Harrison Grey Fiske and it will be presented at the Faurot opera house next Wednesday, Sept. 2, with Miss Rebecca War-

ren in the role of the much wronged, much abused and passionate heroine. Few dramas have been written which require so much of a female star as does "Tess of the D'Urbervilles," and a task of no small magnitude is before Miss Warren. It is said that she is proving equal to the occasion, however, and is especially good in the stronger scenes which require so much of intensity and reserve force. A first class production is promised with all the original scenery and effects and a company vastly superior to the usual standard of road organizations.

"For Mother's Sake" in which Little Marie Heath will be seen as a star the coming season, is a rural play of "Shore Acres" order, and is said to be one of the best of the New England plays.

Haverly's Mastodon Minstrels, which

comes to Faurot opera house next Thursday, Sept. 3, carries more scenery than any other similar organization on the road. The first part setting bids fair to eclipse anything of its kind ever attempted before with this kind of an organization, and is by Moses & Hamilton, the well known New York artists. The scene is taken from the Louisiana Purchase Exposition to be held in St. Louis this fall, a new departure with mechanical lighting effects of an indescribable nature. When the drop curtain first ascends, a picture of unique beauty strikes the eye. The auditor forgets the stage, and only sees the effect in general. The color scheme has been so arranged in conjunction with the mechanical

part of the setting, as to do away with anything that looks like painted scenery; a work of art that promises to become the talk of this city. The company is larger and better than any other, and besides Billy Van the minstrel man, who is the star of this famous organization this season, it contains such noted people as Marcus & Gattelle, an aggregation of acrobatic skitatorial and tempestichorean artists, who are said to be a big laugh in themselves.

Mr. George M. Vall, basso profundo, formerly of "The Bostonians," and late of "The Runaways," Frank Coombs, contralto, formerly a mail carrier in Seattle, Wash., Masler & Conley, the Young Brothers and Frank Fuhrer, the Creator of minstrel band masters, who with his famous band, is one of the out-door features. This famous organization also consists of a trained chorus of twenty, and an orchestra of fifteen skilled

musicians. "Near the Throne," the popular novel of the orient by W. J. Thorold, has been made by its author and Frank J. Hollis into a spectacular drama of four acts and as many highly colored scenes of Egypt. It is said the new play contains, not a few striking situations, and thrilling climaxes, dealing as it does with a handsome young officer in the army of Napoleon, with an intriguing Saracen and with a beautiful Egyptian girl with whom both men are in love. The theme of the drama is the struggle of these two soldiers for the crown and for a woman. The beautiful scenery and picturesque costumes create a sensation everywhere and it is said that the marvellous production accorded this novelty will surpass anything ever attempted at the local theatre. The company is headed by Thomas R. Alexander, who for several seasons past has so successfully starred in "The Prisoner of Zenda." The company numbers twenty people, and includes Miss Izetta Jewel, of the Castle Square theatre, Boston.

## OBITUARY.

Althodore J. Stevick was born Feb. 11, 1859, in Sugar Creek township, Allen county, Ohio. He died August 24, 1903, aged 44 years, 6 months, and 13 days. He united with the Methodist Episcopal church in Allentown under the pastorate of Rev. Swift, during the winter of 1891 and 1892. He leaves to mourn their loss a wife, Mrs. Tressie Stevick, two sons, W. L. and Dale R. Stevick and a little daughter, Ethel Margaret; also his aged father, Daniel Stevick. He was a kind husband, a loving father, and an obliging neighbor. He was always interested in the success of his church and continued religious duties in his home until his death. Four years ago he identified himself with the I. O. O. F., of which organization he was an honorable member; a member whose presence in the lodge room was always appreciated and one who was loved by all the brothers. His death was the result of heart failure and came as a shock to every one who knew him, because of his very robust appearance. He never had the least intimation of heart weakness. Funeral services were held at his residence, Wednesday, the 26th, at 2 p. m. Rev. A. H. Weaver, of Celina, officiated, assisted by Rev. K. L. Smith, of Allentown. The Elks lodge No. 818 of the I. O. O. F., of which he was a member, attended in a body. Robed in their regalia, they assembled at the door of the home where they engaged in the rendition of their beautiful and impressive ritual ceremony. They completed their work at the cemetery and dropped the branches of evergreen into the open grave proclaiming eternal remembrance. Interment was made in Woodlawn.

## TEXAS TOPOGRAPHY.

A map of a portion of El Paso county, Texas, known as the Cerro Alto quadrangle has just been published by the United States Geological Survey. The quadrangle is a typical southwestern desert, the only water supply within its limits being found in pools, called tanks, formed by the frequent rains in places where holes have been worn in the surface. These holes are capable of holding from one to three or four barrels each, and are of such importance that they are named and known to the whole surrounding country. The largest of these pools is in a shallow basin near the foot of Cerro Alto, the mountain from which the quadrangle takes its name. This tank has appeared within the last few years, the trampling of the cattle having made the ground firm enough to hold water.

Some attempts have been made to collect water by means of dams, but with little success, and no successful well has yet been drilled; so that the country, with the exception of a few spots where an occasional herd of cattle range over a limited area, is still unavailable for any sort of production.

The topographic features peculiar to this region are shown on the map, whose contour lines are drawn at 50-foot vertical intervals. The southern end of the Hueco Mountains, on the north half of the western edge of the quadrangle, appears as a broken plateau with occasional eminences, of which Cerro Alto, a great rock mass rising abruptly and visible from all sides for many miles, is the highest. San Antonio Peak, one of a group of similar mountains, is shown in the northeast corner of the quadrangle. Though austere and forbidding at close range, the landscape at times,

**THE WEATHER.**

Washington, Aug. 29.—For Ohio:  
Rain tonight, cooler in east and the  
southern portions; Sunday probably  
fair.

If the republican papers of Ohio are  
not afraid of the result of the Johnson  
campaign, then why are they in such  
a perturbed state of frenzy, and so  
free with their billingsgate about him.

It is pleasant news to hear that  
American vice consul was not killed,  
that Turkey told the truth about it,  
but it isn't so confoundingly deligh-  
tful to know that the whole govern-  
ment, and every press association, and  
consequently every newspaper in the  
United States was denounced by the  
sensational story.

The democratic campaign will soon  
be on in earnest and with two such  
aggressive fighters as Johnson and  
Clarke in the fore front, there is going  
to be something doing that will give  
the "stand patters" a finish fight.

The democrats of Ohio in their con-  
vention had a time something after  
the style of the republican conven-  
tions in this county, and that means

that there is still lots of fighting blood  
left in Ohio democracy.

Tom Johnson is the democratic can-  
didate for governor. An overwhelm-  
ing majority of the delegates in the  
convention considered him the logical  
leader, and a capable exponent of the  
magnificent declaration of democratic  
principles embodied in the platform.  
There is nothing for which Mr. John-  
son or the platform stands that can-  
not, and will not command the sup-  
port of a united democracy. There  
were delegates in the convention and  
some outside of it, who had for  
a personal choice Mr.  
Zimmerman, but as in county  
primaries, and conventions, the  
choice fell elsewhere, and in democ-  
racy, the majority rules. It is there-  
fore the duty of every democrat to  
put his shoulder to the wheel, and  
help Tom Johnson make the most ag-  
gressive fight the state has ever seen.

**SHALL WE RATIFY CRIME?**

For years the Republican editors of  
Ohio raved about boodling in con-  
nection with the election of Payne and  
Brice to the senate, but neither Payne  
nor Brice was ever convicted of bribery  
by either house of the general as-  
sembly.

Neither Payne nor Brice had the  
wife of any legislator kidnapped and  
held as a hostage for her husband's  
vote.

Neither Payne nor Brice was obliged  
to remain outside the state of Ohio  
one whole year to avoid the service of  
summons to appear before an investi-  
gating committee and to keep out of  
the reach of grand juries until the  
statute of limitation had expired.

Not one of the lieutenants of either  
Payne or Brice fled to Canada to es-  
cape arrest for complicity in a carnal  
of bribery, kidnapping and intimidat-  
ation, as did one H. H. Boyce.

Not one of the lieutenants of Payne  
or Brice fled to Canada and from  
there was transferred to Cuba, and  
from the Havana postoffice was trans-  
ferred to the Cuban jail, and from the  
Cuban jail was rescued because he  
threatened to lay violent hands on the  
pillars of the temple, for Major Rath-  
bone's record stands without a paral-  
lel in the history of bribery in Ohio.

Not one of Payne's or Brice's lieutenants  
among the members of congress  
was obliged to keep out of the  
state as long as Major Dick so loyally  
suffered self-expatriation to avoid ser-  
vice of summons.

Shall we elect a legislature in Ohio  
this year that will ratify that disgrace  
next January?—Columbus Press.

**AN OLD MAN'S STORY.**

A half dozen boys were gathered  
about an old barn under which a de-  
tached dog had taken refuge from  
their tormenting attentions.

Some were lying flat on the ground  
peering under, some were hurling  
small missiles as far as they could  
reach, while two others, more enter-  
prising still, were trying to pull up a  
board in the floor.

Amid their excited shouts of "There  
he is! I see him!" "Hold on, there, I'll  
fix him!" and kindred exclamations,  
they did not hear carriage wheels in  
the soft, dusty road or see the occupant  
until a quiet voice said  
"What is it, boys?"

One or two slunk away in a shame-  
faced manner, but two or three others  
began all together to tell him what  
their victim was.

"He hasn't nobody's dog," said one.  
"No, we think he's got hydrophobia,"  
said another, while a third added:  
"He's no 'count anyhow, 'nd if we can  
git him out we're going to tie a stone  
to his neck 'nd drowned him over in  
Simmons' pond."

"Has he bitten any of you?" the  
quiet voice inquired again.

"He sort of snapped at Wallie's  
hand, 'nd he'd a bit me if I hadn't seen  
two smart for him," said the largest  
boy, while "Wallie" examined his  
dirty fingers with a martyr-like air.

"I suppose you boys were quietly  
playing somewhere and the dog  
pitched into you?"

There was profound silence for a  
few moments, when one bright-eyed  
little fellow said, manfully:  
"No, mister, he didn't. He was lyn'  
down with a bone—just gnawin' it, ye  
know—'nd we sort of got to pleggin'  
'nd pestern him, 'nd 'twas when  
Wallie snatched the bone that he  
snapped."

"Have you time to listen to an old  
man's story?"

Instantly sticks and stones were  
dropped, though two of the lads tried  
to put on an indifferent front.

Driving his horse into the shade of  
the building, the stranger began:  
"As a boy I was fond of hunting,  
and spent many days with my dog,  
Stanley in the woods. I professed to  
be very good to him, but when I  
think of the whippings and kicks the  
noble fellow received from me, I  
as I called it, I was 'training him,' I  
am amazed to think of the affection  
he gave me in return; but the worst  
was yet to come.

"He had never been a good retriev-  
er. You know what that is, of course

—a dog that will go anywhere, after  
you have shot your game, and bring it  
to you without muzzing or tearing it  
in the least. I had repeatedly beaten  
Stanley for his failure in this line,  
though I knew it came from the fact  
that his former master had whipped  
him for carrying home dead chickens,  
or anything like that, that he found in  
the neighborhood during his puppy  
days, true to his retrieving instinct.  
One day while shooting ducks, I said  
to him, 'now, sir, you'll bring me that  
bird out there on that island or I'll kill  
you; do you understand it?' I shall  
always think he did, from the troubled  
look he gave me and the pleading way  
in which he crept to my side and at-  
tempted to caress my hand. Roughly  
I shook him off and bade him go fetch  
that bird. Obediently he plunged into  
the ice-cold water, swam to the island,  
and then stood in an irresolute, trou-  
bled manner beside the duck. Angri-  
ly I shouted my orders, but he only put  
his nose on it, then swam back toward  
me. I sent him back three times;  
then he attempted to land. I knew  
that he was too chilled to make it pos-  
sible for him to return to the island,  
but my passion mastered me, and  
again and again I struck him back  
into the water with my gun butt,  
fiercely declaring that he would bring  
me that bird or never land alive.

"Presently he grew so helpless from  
cold, struggles and blows that he let  
himself drift beyond my reach, but  
frenzied with rage, I dropped my gun  
and snatched up a long pole. I leaned  
over the water's edge to strike him.  
As the pole came down some sod or  
root under my foot gave way, and I  
found myself struggling in the coldest  
water I was ever in; but it was only  
for a few brief moments, for, with the  
icy hands of death already tightening  
about his faithful heart, that noble  
dog roused himself at sight of my peril,  
worked toward me as best he could,  
and with a last desperate effort, born  
of love and fidelity, he dragged me to  
shore, sank down, and, with a few  
short gasps, was dead.

"You understand what I mean now,  
and all I have to say further is, boys,  
be kind to every living creature, and  
if you can do any good by repeating  
an old man's story, tell it again and  
again."

There was silence in the little group  
as once more the carriage wheels rolled  
noiselessly away; but presently the  
largest boy took some pennies from  
his pocket and bade two of the smaller  
ones "run to the market and get a  
good meaty bone." On their return it  
was laid where the stray dog could  
smell it, and then the company quietly  
dispersed, each to tell some one  
else the old man's story, and put in  
practice, we trust, his admonition,  
"Be kind to every living creature!"—  
Practical Farmer.

**RUSSIA**

**Promises to Be a Strong Competitor**

**Of U. S. in Lumber Trade of the Orient. Development on the Coast.**

The lumber market of the Orient  
and the share which the United States  
is likely to have in supplying them, is  
the subject just now of some atten-  
tion by the Department of Commerce  
and Labor through its Bureau of  
Statistics. The bureau recently re-  
ceived and published reports of  
American consuls in the Orient which  
announced the arrival of the first  
cargo of lumber in the Chinese market  
by a Russian vessel from Vlad-  
vostok. This fact opens the ques-  
tion of future competition for the  
Oriental market between the Ameri-  
can lumber interests on the Pacific  
coast, on the one hand, and that of the  
Russians in Siberia and on the Yalu  
river on the other.

In both cases enormous resources  
are awaiting development. The Ameri-  
can industry of the Pacific coast has  
the advantage of organization on a  
large scale and of mechanical equip-  
ment unequaled by that of any other  
field in the world. This is evidenced  
by the rate of annual production. Un-  
official estimates put the annual cut  
of lumber and shingles of the three  
Pacific states at 4,600,000,000 feet, of  
which California supplies 860,000,000  
feet, Oregon 740,000,000 feet, and  
Washington 300,000,000 feet. At this  
rate it is calculated that the forests  
of the Pacific coast will be exhausted  
in forty years.

As it would naturally be expected,  
the Pacific lumbermen have been rap-  
idly enlarging their area and volume  
of commercial distribution, both in the  
foreign and the domestic markets.  
According to figures gathered by the  
Bureau of Statistics, the redwood  
shipments from upper California, most-  
ly to San Francisco and the southern  
coast in 1902 amounted to 260,537,905  
feet. In addition to this, the Califor-  
nia coast alone in 1902 received  
600,102,982 feet of pine and fir, in  
1901, 403,245,540 feet and in 1900, 370,  
258,912 feet. The rate of increase, as  
will be seen by comparison of these  
figures, is enormous.

Further north on the coast the trade  
in lumber has been expanding with  
corresponding strides. Shipments by  
water alone at Seattle were 564,472,  
501 feet of lumber in 1902 and 508,  
064,49 feet in 1901. A movement of  
almost equal proportions is taking  
place to points in the interior by rail.  
In 1902 rail shipments to the interior  
amounted to 562,175,999 feet and in  
1901 to 361,520,000 feet. The number  
of shingles sent east of the Cascade  
mountains extending into the terri-  
tory east of the Missouri river and,  
in many cases as far as the lakes,  
amounted to 5,680,640,000 in 1902, and  
to 4,485,600,000 in 1901. The traffic  
furnished to railroads in 1901 aggre-  
gated 52,337 cars of lumber and  
shingles from Seattle alone, and 69,  
231 cars in 1902.

Rail shipments from Tacoma, in-  
cluding both lumber and shingles,  
were 3,141 cars in 1900, 4,520 cars in  
1901, and 4,026 cars in 1902.

Portland, Oregon, shows a traffic  
toward the interior by rail, ranking  
next to Seattle in importance. In the  
calendar year 1900, 11,985 cars of  
lumber were shipped from this port,  
13,517 in 1901, and 15,876 cars in  
1902.

As the above figures indicate, one  
of the most noteworthy facts in con-  
nection with the development of the  
Pacific coast lumber trade is its in-  
creasing contribution to the trans-  
continental tonnage for railroads on  
the way back from the Pacific coast  
eastward. The opening of the Missis-  
sippi valley to the Pacific coast lum-  
bermen likewise brings the export  
trade from the coast into closer rela-  
tions with the demands of the domes-  
tic consumer. The consumer in the  
Mississippi valley is directly inter-  
ested in the progress of lumbering,  
both in the northwestern states and  
in the southern states as main  
sources of supply. The entire east  
is chiefly dependent on both of these  
sources. Consequently all domestic  
industries and interests relying on the  
lumber supply of the future are con-  
cerned with the prospective ability of  
any foreign competitor to share the  
foreign market, and thus to affect the  
rate of domestic output and its ratio  
to domestic demand.

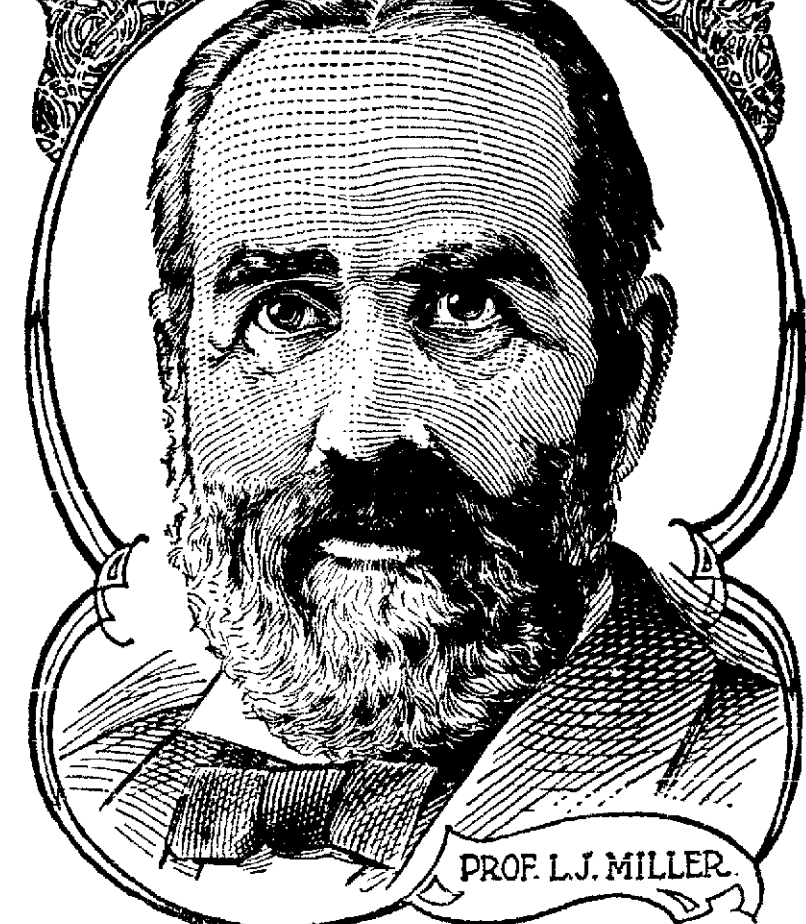

The relative importance of foreign  
to domestic demands, so far as the  
Pacific coast is concerned, is not eas-  
ily ascertained. There are, however,  
a few figures bearing on the subject.  
The principal mills of the state of  
Washington for 1892 reported that 386,  
172,388 feet were sent to coastwise  
destinations, and 153,115,654 feet to  
foreign destinations. If this ratio  
holds good for the coast as a whole,  
it would appear that nearly 30 per-  
cent of the output goes to foreign and  
70 percent to domestic uses.

From present indications the United

**SO SAYS PROF. L. J. MILLER, CHEMIST.**

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School  
of Ypsilanti, Mich., writes from 227 N. Clark Street, Chicago, Ill., as follows:  
"As several of my friends have spoken to me of the favorable results obtained  
through the use of Peru-na, especially in cases of catarrh, I examined it most  
thoroughly to learn its contents.

"I found it composed of extracts of herbs and barks of most valuable medicinal  
qualities combined with other ingredients, delicately balanced, calculated to tone  
up the system, restore the functions and procure health.

"I consider Peru-na one of the most skillfully and scientifically prepared  
medicines, which the public can use with safety and success."—PROF. L. J.  
MILLER.

States has nothing to fear from her  
rivals in the lumber trade of the Pa-  
cific. Ultimately the Philippines will  
no doubt contribute materially to the  
supply. The trade from the Pacific  
coast of the United States is now in  
a strong position.

United States exported 1,402,493,600  
feet of lumber and sawn timber, of  
which 227,547,000 feet were sent from  
the Pacific coast. The exports of  
wood and manufactures thereof ad-  
vanced from \$24,000,000 in 1893 to  
\$57,000,000 in 1903. Lumber, the larg-  
est item, increased in value from  
\$9,000,000 in 1893 to \$21,000,000 in  
1903.

Since 1893 the Chinese empire,  
Hong Kong, British Australasia, Peru  
and Chili have, together, doubled the  
value of American lumber imported.

**"Tune up the System."**

Hon. Joseph H. Ridgeway, Secretary  
of the American Anti-Treat Society,  
writes the following letter from the  
Grand Central Hotel, St. Paul, Minn.:  
"It is with great pleasure that I en-  
dorse Peru-na as  
an honest medi-  
cine, competent  
to do all it  
claims, I have  
used it several  
times and know  
of nothing that  
cures so com-  
pletely, and at  
the same time  
builds up the  
system.

"I have re-  
commended it to  
a number of my  
friends and always feel that I do them a  
service for I know how satisfactory the  
results invariably are. I only wish  
every family had a bottle—it would save  
much sickness and doctor bills."—Joseph  
H. Ridgeway.

**"Feel Better Than for Five Years."**

Mr. James B. Taylor, Roberts, Ind.,  
writes:  
"I am at the present time entirely  
well. I can eat anything I ever could,  
I took five bottles of Peru-na, and feel  
better now than I have for five years.  
I have doctored with other doctors, if

stomach troubles. I take great pleasure  
in thanking you for your free advice  
and Peru-na."—James B. Taylor.

**"I Enjoy My Meals as I Used to."**

Mr. J. W. Pritchard, Wolf Lake, Ind.,  
writes:  
"I am pleased to say that I have been  
cured of catarrh of the stomach by Pe-  
ru-na. I could hardly eat anything that  
agreed with me. Before I would get  
half through my meal my stomach  
would fill with gas causing me much  
distress and unpleasant feelings for an  
hour or two after each meal. But,  
thanks to your Peru-na, I am now com-  
pletely cured, and can eat anything I  
want to without any of the distressing  
symptoms. I can now enjoy my meals  
as I used to do, and it is all due to Dr.  
Hartman and his wonderful medicine,  
Peru-na.

"It has been one year since I was  
cured, and I am all O. K. yet, so I know  
I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of

permanent cure for catarrh of the  
stomach the above letters testify.

## THE PINKHAM CURES

ATTRACTING GREAT ATTENTION AMONG THINKING WOMEN.

Mrs. Frances Stafford, of 243 E. 114th St., N.Y. City, adds her testimony to the hundreds of thousands on Mrs. Pinkham's files.

When Lydia E. Pinkham's Remedies were first introduced, thousands of the country framed upon their curative claims, but as year after year has rolled by, and the little group of women who had been cured by the new discovery has grown into a vast army of hundreds of thousands, doubts and skepticism have been swept away as by a mighty flood, until to-day the great good that Lydia E. Pinkham's Vegetable Compound and her other medicines are doing among the women of America is attracting the attention of many of our leading scientists, physicians and thinking people.

Not alone could win such fame; why, therefore, is the woman who for a cure relies upon Lydia E. Pinkham's Vegetable Compound?

## KNOCKED OUT RUNNING HOME.

Wreck on Wabash Near Toledo Uses Base Ball Players Roughly.

Peru, Ind., Aug. 29.—A Wabash train carrying the St. Louis and Cleveland American League base ball teams, was wrecked early this morning, at Napoleon, O. Several of the players were hurt. William Sudhoff, pitcher for the St. Louis team, hand cut and wrist sprained, Sidney Mercer, secretary of the St. Louis team, rib fractured; Emmet Heidrick, center fielder, St. Louis, right leg and face badly cut. Napoleon Lajole, Cleveland, knee sprained. Several others were bruised. Another train was made up at Peru, and it is thought that the teams will arrive at St. Louis for the game this afternoon. The wreck was caused by the misreading of a signal.

## A Ditch With a Pittsburgh. INTO

Train Wrecked

On the C. H. &amp; D. Near Sidney Today.

Rumors of a Fatality Were Started But Proved to Be False

And the Only Loss Is to the Company—South Bound Freight Struck a Work Train at the New Bridge.

The wreck whistle of the C. H. & D. shortly after 11.30 this morning, brought out the Lima crew, and from that moment there were all sorts of rumors, which kept everybody guessing. An investigation promised but little as the reports all went to the headquarters at Dayton and local officials and dispatchers knew little or nothing of the details.

The report that Mike O'Connor, of Cincinnati, one of the most popular engineers on the road, and well known in Lima, had been killed, added to the interest taken in the supposed calamity, but a careful investigation proves that the wreck was not accompanied by the deplorable features which so frequently add to the distress of railroad life.

The accident happened to a second 95 south bound which had attached to it engine 277, one of the new Pittsburgh engines recently bought and the third which has had her nose broken since the shipment of the entire number was made.

The south bound was approaching the work being done on the bridge about three miles south of Sidney, and the work train got in the way at an inconvenient moment. A crash followed and the engines cleared the wreckage by jumping. The Pittsburgh engine went into a ditch and carried several cars with it, and five of the flats also left the rails, blocking the right of way.

## MARKETS.

New York, Aug. 29.—Business in the stock market has dwindled to the lowest level since the summer of 1900. The coming money requirement to move the crops and its effect are awaited and all other conditions whether favorable or unfavorable are ignored. There is growing confidence that adequate resources have been conserved to avoid undue money stringency but any speculative absorption of credit is feared because it might encroach on the supply needed for regular trade purposes.

New York, Aug. 29.—Prices moved in a sluggish and irregular manner on small opening dealings. Advances of 3/4 in Tenn. Coal and Republic Steel pfd. were the largest changes.

The demand for stocks was too scant to support prices and there was a slight easing off all around. Union Pac., Atchison and Amalgamated absorbed the most of the limited dealings and also showed the widest priced movements.

There was light professional selling on an early impression that the banks statement would not be as good as foretold, and a slight hardening when this impression was confirmed by the small cash increase and the considerable loan increase shown by the statement. Prices rose fractionally over last night in some cases. Tenn. Coal gained a point. The whole movement was insignificant. Among the specialties, Atchison, pfd, Duluth, South Shore and Atlantic pfd, Wheeling & Lake Erie and Colorado Fuel rose a point or more. C. S. Rubber pfd 2, and Illinois Central and Northwestern declined.

## RUTH AND NAOMI.

"Edith," said grandma, as a lonely little girl went up the road, "why don't you play with Amy now?" Grandmothers have time to think although their fingers are the busiest, and this grandma had seen Amy dropped from the little circle of playmates. She knew too, what trouble had come to Amy's home.

"I don't know," said Edith. "You used to go to Amy's often, and no one enjoyed her carriage more than Edith."

"She always asked me, grandma and her mother was glad."

"Wouldn't she be glad to have you now?"

"Perhaps," said Edith, "but things seemed so different after their home was sold. I felt queer and Amy felt queer. So I stayed away."

"If I were Edith," said grandma, speaking slowly to some one far away, "I'd go to Amy and give back some of the pleasure she gave me long ago."

Grandma went on sewing, and Edith read her book. Suddenly she sprang up, dropped the book on the table, and not long after, another little girl went up the road.

"Amy," said Edith going into the tiny parlor, "I've brought you some of the apples you like from our orchard. Didn't we have fun bobbing for them in your kitchen?"

"Oh," said Amy. "Then what do you think she did! Set down and cried."

"Why, Amy, aren't you glad I came?"

"So glad, I'm just finding out how sorry I was."

"I'll never stay away again," said Edith putting her arms around Amy. "Did you play with Naomi?" asked grandma, when Edith told her about it, with flushed cheeks.

"I don't know what you mean, grandma."

"Ruth staid with Naomi when she needed her badly—when she had lost everything else."

"Amy hasn't lost everything else, but she won't lose me either, grandma, darling!"—Ex.

## TRACK NOTES.

Want Steel Cars. The mail clerks who operate on trains are endeavoring to bring before the postoffice department at Washington the matter of having the railroads furnish steel frame postal cars. Baggage men have also been aroused and are said to be contemplating like demands of the railroads. These men are the most helpless of any on the train in cases of wrecks and contain the names of postal clerks and baggage men more often than any other persons. It is also known from statistics that the cars most often wrecked worst are the postal and baggage cars, their framework not being so strongly braced by inside finishing as are the regular passenger coaches. The matter of steel frame cars, the clerks seem to think, would obviate many of the fatalities that occur through collisions. The telescoping of these shell-like cars in such cases would be eliminated, for, with the steel framework sustaining the impact, there would not be the danger met with in the wooden cars.

Machinist Tim O'Brien, of the C. H. & D. shops, had one of his feet severely injured today, a heavy casting falling upon it. The injury was dressed by the company's surgeon, Dr. Collins.

# SAVED FROM SUICIDE

Call at our store and see the photograph of this man taken before he commenced the use of the D.D.D. Remedy. He was covered from head to foot with Eczema. Come and compare his pictures before and after using the wonderful medicament, and they will convince any sufferer that the D. D. D. Remedy completely roots this terrible disease out of the skin.

In the pictures shown before him, the sufferer, Mr. Henry Kessler of Pittsford, Ill., was in a desperate state from eczema which had continued for over ten years, becoming steadily worse and worse each year in spite of all doctoring possible. Life seemed a burden and suicide was often thought of.

Seeing an account in a newspaper a short time ago of a remarkable case of eczema cured by D. D. D., Mr. Kessler tried it. He wrote in to the D. D. D. Company asking to be photographed and to permit publication of his photo if they would guarantee the remedy to cure him completely as in the case he had read of. From the first use of it the itching and distress disappeared. And in three weeks the skin healed over in every spot where affected. In a short time it was a matter of only a very few days the proper, white, natural, smooth state of skin was restored, and there has never since been any recurring sign of the disease anywhere on his body.

## Started in Few Small Spots.

The first signs extending and leucacy of this disease are seen in this case. First one and then another small spot showed. Nothing could drive them away. Slowly the spots became covered and the neck and back. He fought hard to save the face, but that next was covered and told the story to the world. Then the hair became extracted with it. Soon beginnings were showing almost everywhere else on the body, including a square inch being free from it. In a few years more the man would undoubtedly have been scratched, scratched, scratched and D. D. D. not conquered the disease. With his troubles already experienced and with this future starting point in mind, what wonder is it that suicide seemed inviting.

A wonderful particular of this case has been in all cases more or less is that the worst leg sores were the first to go away to the treatment, while the disease lurking under the skin held on longest. Twenty-one days, however, cleared out the whole infection—every germ of it.

## We Vouch For This.

The facts in this case of Mr. Henry Kessler of Pittsford, Ill., have been laid before me in all details with proofs that are unimpeachable. Every particular in the history of this remarkable cure has been taken from the above statement of the case. From the words of the sufferer. We vouch that this announcement comes far from doing full justice to the remarkable merit of a medicine which accomplishes results so important to humanity.

Since we have handled the preparation in this city, a great number of people have used it for various skin affections. Its results have been invariably satisfactory. We are therefore willing to guarantee any purchaser full return of his \$1.00, if satisfactory results are not experienced from a trial of a bottle in any case of skin affection.

With the usual rush of work incident to the close of the month, it appears that Allen county will manage to retain its excellent lease as the most active county in the Buckeye district, and the indications are that the August record will be much better than that reported at the close of July.

While the new wells are not showing for much more than the ordinary in production, there is a steady run of the better grade of producers, and these count for better than a few of the flashy kind, such as are found in some of the other pools.

The McKean Oil company has found another good producer in the Jackson township field, south of Beaver Dam. This is its No. 5 well on the Hary Herr farm, section 5, and the first day's gauge shows an output of 75 barrels.

The test drilled by John Bird on the L. Huffman property, in section 6, Jackson, will make about 40 barrels at the start.

On the Zion's church lot, in section 8 of Jackson township, the 7th well has been completed by J. A. and J. W. Glenn, and it is a little better than some of the others on that lease, though small at that. The initial yield was about 30 barrels.

The Planet Oil company has a couple of new wells on its properties northeast of Beaver Dam. No. 1 on the B. Balmer farm, section 15, Richland, was a 15-barrel, and No. 3 on the E. Andreas farm, section 22, started off at about 20 barrels.

The Columbia Petroleum company, which has not done any new work for nearly a year, has just finished up the second well on the Daniel Fett farm, in section 27 Richland, east of Beaver Dam, and it starts off at a 30 barrel gait.

East and north of town, in Bath township, Hoover and Mitchell finished a new well on their John Schlosser lease, section 21, which will make quite a fair addition to their production. It was No. 7 on the property, and the first day's output amounted to about 70 barrels.

The Three S. Oil company's No. 2 on the J. K. Pether farm, in section 27, Bath, made a pretty fair start, putting about 50 barrels into the tank the first 24 hours after it was shot.

East of Elida, in German township, the Ohio Oil company has another fair well at its No. 6 on the D. Culp farm, section 8. The first day's production was 50 barrels.

The Ohio's No. 3, A. Stemen, in section 12, Marion, west of Elida, was good for 50 barrels.

On the J. A. Good farm, in section 11 of Marion township, north of the Camel Back school house, the United States Petroleum company completed No. 10 on the J. A. Good farm, and it is a 40 barrel well.

Williams and Argue have a fair well in their No. 2 on the C. D. Brennehan farm, section 4 of Sugar Creek township, northeast of Elida. It registered 10 barrels the first day.

Pennell Bros. finished No. 1 on the S. J. Ridenour farm, in section 2 Sugar Creek, and got a well that is hardly worth pumping, the first day's operation yielding but 4 barrels. Their No. 5 on the P. Zurcher farm, in section 2 Sugar Creek, was a 25-barrel well.

Southwest of Elida four miles, in section 21 of Amanda township, Mair Bros. have completed their fourth well

on the M. Mesty farm, and it made 45 barrels.

Northwest of Spencerville, in section 27 of Spencer township, J. W. Mullen has a small pumper in his No. 2 on the Jacob Book farm. It made 18 barrels at the start.

In Washington township of Auglaize county, R. J. Straight's No. 3 on the E. Schroeder farm, section 6, was a 20 barrel producer.

Mercer County Wells.

While there is considerable new work under way in various portions of Mercer county, the results have not been out of the ordinary, and it is only occasionally that something big turns up. The Ohio Oil company had a couple of good wells during the past month, but one of them, its No. 13, on the S. S. Wick farm, in Black Creek township, which started off at close to 200 barrels per day, pumped off in a couple of days, and has since been making little or nothing.

South of Chattanooga, in section 7 of Liberty township, the Parby Oil company got a rather light well at No. 4 on the M. E. Berron farm, and the Sun Oil company's No. 4 Fred Kuhn, in the same section, made only 12 barrels.

A test well drilled by the Four Bros. Oil company on the George Boebennmyr farm, in section 17 Liberty township, three miles south and a little east of Chattanooga, does not look very promising, its first day's yield being but 10 barrels.

In the northern portion of the county, along the Van Wert line, a test well was drilled by A. T. Baldwin & Co., on the A. Locke farm, section 4 of Dublin township, and the result is a 25 barrel. In the same section, J. D. Downing & Co. completed their No. 6 on the S. A. Brown farm, which proved to be devoid of oil.

Northeast of Chattanooga, in Black Creek township, the Chattanooga Home Oil company finished up its No. 4 on the E. J. Michael farm, section 20, and it will be a light gasser.

On the Susan Mack lease, in the southwest quarter of section 11 Jefferson township, west of the reservoir, the Interstate Oil & Gas company completed its second well, with a fair producer as the result. It is credited with 40 barrels at the start.

Between St. Marys and Celina, north of the reservoir, Montgomery & Stitt completed No. 6 on the R. W. Stearns farm, section 2 Jefferson township, with a 15 barrel well as the result.

North of Mendon in section 16 of Union township, Kelly Bros. have finished their No. 8 on the George Roach farm, and it is good for about 20 barrels.

In the northeast corner of the county, the Frank Drake Oil company has two new wells, both of the 25 barrel calibre. They are No. 12 on the G. F. Griffin farm and No. 5 C. Griffin, both in the southwest quarter of section 1, Union township.

# Your Health Depends on Your Kidneys

Every Reader Should Test the Wonderful Merits of this Great New Discovery

## IRVING'S BUCHU WAFERS

If you wish to be rich in health, you should be careful of your KIDNEYS as a good financier is of his cash capital. Your KIDNEYS are your capital. Your health depends principally on them. If you keep THEM well you may possess your health in safety. Now by this is not meant that good financing for your health is to overlook all the other organs and merely look after your KIDNEYS. Your other organs may need care, but your KIDNEYS must because they do most. If you are sick begin with your KIDNEYS, because just as soon as they are well, they will help all the other organs to health.

For a great many years it has been the custom for people to say: "My Blood is out of order, it needs purifying. I feel all used up, my skin needs clearing, my Brain feels tired." They are right, but do they act right? They generally go and get a laxative to purify their blood; but does blood run through the bowels?

Science proves that all the purifying that your blood needs, in fact all that can be done, must be done by your KIDNEYS. The KIDNEYS are filters. They strain and purify your blood. When your blood is impure nothing can purify but your KIDNEYS. When the KIDNEYS are clogged from overwork of any kind, worry, exposure or excesses, they can be set right by that wonderful new remedy known as IRVING'S BUCHU WAFERS. They are a small wafer and pleasant to take. They are not a patent medicine or secret remedy, and the formula is cheerfully furnished to the numerous physicians who prescribe them in their practice, recognizing the efficiency of their ingredients, such as Buchu, Juniper Berries, Asparagus, and other valuable and purely vegetable extracts, which are so concentrated as to make them more than double their value.

## Taken With Cramps.

Wm. Kimes, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.

# BIG ROBBERY LAST NIGHT.

**Eleven Kegs of Creamery Butter Stolen by Unknown Thieves.**

**Each Keg Contained Sixty Pounds of Butter and the Total Was Valued at One Hundred and Forty-three Dollars.**

One of the biggest and most mysterious robberies that the police have attempted to unravel for some time, occurred last night at the plant of the Lima Creamery & Cold Storage Co., on south Central avenue. Eleven kegs, or tubs, each containing sixty pounds of the process butter that is manufactured by this institution were stolen and the thieves got away with their booty without leaving behind them a solitary clue to indicate how the robbery was accomplished or how they got away with or disposed of the butter.

The robbery was discovered about 7 o'clock this morning by one of the employees at the plant who entered a

stock room in the cold storage building to get a package of meat. He had placed there last evening. He immediately noticed that some of the tubs of butter that he had seen in the room last night, were missing and an inventory of the remaining supply in storage proved that eleven tubs and their contents had been stolen.

The police have been unable to determine how the thieves gained an entrance or removed the heavy tubs out of the building without being discovered by the man who is employed about the plant at night. The thieves undoubtedly had a wagon in which they hauled the butter away but no trace of it can be found.

# RAPID SPREAD OF CITY LIMIT

**Compels the Board to Provide Three More School Buildings.**

The board of education held a special meeting last night for the purpose of purchasing ground for the erection of school buildings in the outskirts of the city for the convenience of pupils who have long distances to go.

The quorum included President Prophet Donahue, Dr. Terwilliger, Dr. Brink, Dr. McKee, Dr. Moore, Dr. Smith, Dr. Blumenthal, and Miss Disman.

Mr. Klatt submitted a resolution providing for the purchase of a piece of ground on the northeast corner of Calumet avenue and Eureka streets, which Dr. T. K. Jacobs offered for \$1,800. The resolution was adopted as was also one by Mr. Moore, who had obtained an option on the Sybil property in Watt town, consisting of three lots and a house.

When it came to the question of putting up the buildings, there was considerable discussion as to whether the material should be brick or frame. The motion was made by Dr. Terwilliger that brick be used, and it was carried unanimously. Prompt work in getting the proposition under way was done and Mr. Chapman was selected as the architect and will be asked to submit plans for a four room building on the Jacobs' property.

Dr. Terwilliger stated that he had secured prices on three lots on the corner of Richin avenue and Charles street at \$1500, and that a four room brick building be erected. The motion

carried and the services of Mr. Chapman engaged to draw the plans. The names of Leech & Leech, and Mr. Matthews were also suggested, and a number of ballots taken. Mr. Chapman being elected on the third roll call.

Mr. Moore moved that a brick building of two rooms be built on the Sybil property, but the suggestion was made that the idea originally was to convert the house now there into a suitable school for temporary purposes. Mr. Moore asked that his motion be withdrawn, and Dr. Bates moved that the building committee be authorized to have such changes made as were deemed necessary. The motion carried unanimously.

The question of electing a science teacher was next brought up and W. W. Parmenter, who was suggested by the teachers' committee at the last meeting, but not elected, was again named. He received the votes of all present, and word of his election will be sent him to Oskaloosa, Ia.

Mr. Klatt moved that the high school bonds be advertised again, but the clerk read, before the motion was put, two communications from prospective purchasers. The board was inclined to believe that a better premium could be obtained if the bonds were again offered for sale and Mr. Klatt's motion carried, all voting except Bates, Moore and Spiker.

As all the business covered in the call had been cared for, the board adjourned at 9:30.

## MEETING Held by the Board of Health Last Night.

**Prosecution of a Merchant Charged With Dumping Garbage Into the Creek Ordered.**

The Board of Health, held a called meeting last evening, and audited and recommended the payment of August bills and salaries.

Complaints were received about persons dumping unhealthful garbage inside the city limits, and the prosecution of a local meat merchant, charged with having thrown garbage into Hog creek, was ordered. Signs are to be painted and placed at the usual dump grounds forbidding the dumping of garbage.

The Board was informed that the Board of Public Service had determined to construct several small sewers recently petitioned for by the health department.

## TWO Men Charged With Assault

**As the Result Of Trouble Growing Out of Strike.**

**A Machine Works Moulder the Alleged Victim of the Assault.**

**A Colored Thief Captured by Detective This Morning—Several Cases in Mayor's Court Today.**

The management of the Lima Locomotive & Machine Co.'s works has caused the filing of an affidavit in mayor's court, charging Charles Bohlman and Rudolph Zimmerle, with having assaulted Wm. Burke, a moulder, employed by the company.

The trouble seems to be an outgrowth of the moulder's strike. Zimmerle and Bohlman being two of the men who are still out.

Bohlman was arrested this morning by policeman Ferguson. He gave \$20 security for his appearance, and the case will be taken up Monday.

Ernest Patterson, a young colored man who was until recently employed by Dr. Charles Collins, was arrested by detective Patton this morning. When Patterson left Dr. Collins's employ, the latter missed a pair of solid gold cuff buttons, and the colored man when placed in the "sweat box," confessed that he had taken the buttons, and told officer Patton where he could find them.

## In Mayor's Court.

The case against Eli Bailey, charged with having stolen \$30 from C. P. Brown has been set for hearing next Monday.

Joseph Tople, charged with disorderly conduct, pleaded not guilty, and will be tried Monday.

William Robinson, colored, who created a disturbance at the carnival last night, pleaded not guilty to a disorderly conduct charge, and his hearing will be held next Wednesday.

Robert Kalish, charged with drunkenness and fighting, was fined \$100 and was committed in default of payment.

C. E. Jeffries and Charles Rupert, charged with fighting, were dismissed.

Charles Billeter, charged with assaulting Wm. M. Higbee and also arrested on a peace warrant, will be given a hearing Tuesday.

## THE IDLER.

Engineer Geo. H. Hanson, of the L. E. & W., accompanied by his wife and daughter, Miss Geneva Hanson, left today for Toledo, where they will be the guests of their daughter, Mrs. Carl Layre and husband. On next Wednesday, Mr. Hanson will attend the union meeting of engineers, which will be held there, upon that date. Mr. Hanson's fireman, Oscar High, wife and daughter, of south Elizabeth street, will join Mr. and Mrs. Hanson, the middle of next week, and the party will then go to Put-in-Bay, for an outing.

Groceries at the retail store of Carl C. Reis on east North street, are going today at excursion rates and all who want bargains had better call before the excitement wears off. "Pa" Reis is all smiles on account of that bright little boy who has graced his home on east Spring street.

## TRAGIC Death of the Son a Few Years Ago

**Followed by Fatal Accident to the Mother.**

**Mother of Brakeman Joseph Ruble, Deceased, Dies from Injuries—Bitten by an L. E. & W. Passenger Train.**

The St. Marys Graphic of this week contained the following:

Mrs. Joseph Ruble, who it will be remembered, was struck by a passenger train on the L. E. & W. R. R. some time ago, died Monday night after considerable suffering. Her body was entombed until the past week that she would survive the shock, but she was taken worse a few days ago, and gradually grew weaker until she surrendered to the inevitable.

Mrs. Joseph Ruble was the mother of an L. E. & W. brakeman of that name who, it will be remembered, was knocked off of the side ladder of a box car on an east bound L. E. & W. freight train at the Pearl street crossing, a few years ago and was instantly killed. The unfortunate man's widow afterwards entered into a law suit against the L. E. & W. railroad company, and the case was settled out of court only a few months ago.

## FLAMES

**Ignited the Dress of a Young Girl**

**And She Was Frightfully Burned by Them.**

**Suffered Terrible Agony for Several Days and Then Passed Away—Former Lima Colored Girl the Victim.**

Esther Hawkins, daughter of Mr. and Mrs. Wm. Hawkins, colored, former residents of east Kirby street, was fatally burned at the recent home of the family in Alger, a few days ago.

The young girl was working about a coal stove at her home and upon lighting one of the tins from the stove a tongue of fire ignited her apron, and in an instant, she was enveloped in flames. She rushed into the street and screamed for help, but before she reached her home clothing was literally burned off of her. Her body was frightfully burned and she suffered in intense agony until death came to her relief yesterday.

The remains were brought to this city this morning and the funeral was held from the Second Baptist church this afternoon.

The Hawkins family removed from this city to Alger, a few weeks ago.
